

Backup Information for March 21, 2007 Board Agenda Item Consider Approval of FY2007-2008 Instructional Materials Adoption and Budget

- *Online editions and CD-ROM's accompany the new Science instructional materials programs that will be implemented in Kindergarten through Grade 2 in FY2007-2008. The programs will be provided to schools in the traditional textbook format, as well as, in an online edition and CD-ROM format.*
- *New instructional materials programs that have been recommended for District adoption in the areas of: Health Science Education, Health & Physical Science Education, Technology & Industrial Education, Business Technology, Family & Consumer Science Education, World Languages, and Visual Arts Education are supported by a wealth of technology resources. Some features of the major programs are listed below.*

Elementary – Harcourt Science (Grades 1-2)

- Entire Student Edition & Teacher Edition on CD-ROM. (Provides additional reading and support)
- The Student Edition & Teacher Edition content is available with enhancements for online viewing. Interactive explorations and close-up investigations strengthen and expand chapter concepts. Multimedia Glossary reinforces FCAT-tested vocabulary.
- Florida online ePlanner with online Teacher's Edition. Lesson sequencing correlated to Florida standards, lesson planner, and links to printable teaching resources and activity videos.
- Florida All-in-One CD-ROM includes: Teacher's Edition, FCAT Practice, Teaching resources, Lab Manual, ESL Support, Assessment Guide, and Reading Support and Homework.
