TO: Principals / Department Heads

FROM: Michael J. Burke, Chief Operating Officer *MJB*

SUBJECT: SCHOOL ASSIGNMENTS FOR SAFETY TECHNICIANS

Risk and Benefits Management is pleased to announce the assignment of dedicated safety technicians to your school/department to support safety and investigate accidents. Attached is a list of staff members with their assigned schools and departments.

The goal of your safety technician is to work with your assigned safety advocate to support your safety efforts as outlined in School Board policy. To help us assess where we are with our safety efforts, the technicians will be contacting you for an appointment to complete a **Safety Checklist/Survey**. Some other sample tasks will be:

- Reviewing your accidents or incidents with the help of your safety advocate to provide suggestions on how we may be able to reduce or mitigate the chance of a similar accident or incidents in the future
- Reviewing your submissions of your online safety meeting minutes within the TrainU course, Safety Matters Resource Center FY14
- Gathering suggestions from you on particular safety or risk training you would like or safety-related needs
- Supporting the return-to-work process that is a part of our workers' compensation program

We are committed to providing all School District personnel and students with a safe, health and learning environment.

Should you have any questions please do not hesitate to contact the Risk and Safety office at 561-434-8176.
