

**Palm Beach County
School Health Advisory Council**

**GOALS
School Year 2013-2014**

- To support The School District of PBC in promoting policies and programs that provide an environment that encourages healthy nutrition and physical activity in all schools.
- To support the school community in providing programs that promote social, emotional and behavioral health and well being for students and their families.
- To support development and implementation of K-12 comprehensive health education that promotes healthy living and decision-making for students and their families.
