SUBJECT: REVISED FY17 RESULTS OF THE PARENT & STUDENT VERSIONS OF THE SCHOOL EFFECTIVENESS QUESTIONNAIRE (SEQ)

On July 31, 2017 the District released the results of the FY17 Parent and Student School Effectiveness Questionnaire (SEQ). Unfortunately, during a subsequent review of the analysis an error was found in the coding used to produce the report. The following is the revised report detailing the results from the corrected analysis.

The District administered the School Effectiveness Questionnaire (SEQ) from January to February 2017. The SEQ measures perceptions regarding the effectiveness of our District schools.¹ The SEQ provides important information to schools and the District to develop and sustain a Positive and Supportive School Climate, which is a central theme in the Strategic Plan. In addition, these results will inform the Strategic Initiative of Single School Culture 2.0 on systems for academics, behavior and climate within schools.

The categories for the SEQ were developed from using factor analysis and a review of national school climate surveys.² The categories in the parent version of the SEQ are: School Climate (16 items), Diverse Community (4 items), High Expectations (4 items), Individual Concerns (4 items), and Parental Involvement (9 items). The categories in the student version of the SEQ are: School Climate (19 items), Challenging Assignment (5 items), Diverse Community (3 items), Parental Involvement (6 items), Individual Concerns (5 items), and College Preparation (7 items), for middle school and high school students only.

The following analysis and tables are provided for the Parent and Student SEQ for FY15 through FY17. Response rates for both Parent and Student versions are provided in Table 1. Tables 2 through 5 report the percent of positive Parent and Student responses overall and to each of the categories of the SEQ for the District and by School Level, respectively.

¹ There are two versions of the student SEQ, one for elementary and another for secondary levels. The student elementary version is administered only to Grade 5 students. The student secondary version also exists in order to address levels of readability and for issues like college preparation.

² Survey items that are highly inter-correlated or loaded more closely together are supposed to measure the same construct or conceptual category. The average of these item responses composed a category score. This allows the categories to have statistical support. Category labels were taken from research literature related to the structure of school climate.

SEQ Response Rates from FY15 to FY17:

- Parent response rates remained similar, but critically low for the District and at most schools
 - Less than 20% of eligible parents provided feedback, therefore, caution should be used when interpreting results
 - Rates were highest at Elementary (27%), followed by Middle (18%), then High schools (11%)
 - 18 Elementary, 10 Middle and 8 High schools had less than 10% parent participation
- Student response rates remained similar for the District at High schools, decreased in Elementary schools, while Middle school response rates increased by 4 percentage points.
- The number of parents leaving individual items blank increased slightly from FY16 to FY17.
- The number of students leaving individual items blank increased substantially from FY16 to FY17.

Table 1: FY15-FY17 Parent and Student SEQ Response Rates

School Type	Parent*			Student		
	FY15	FY16	FY17	FY15	FY16	FY17
District	20%	21%	19%	51%	51%	52%
Elementary	26%	28%	27%	68%	73%	68%
Middle	17%	17%	18%	57%	55%	61%
High	12%	12%	11%	41%	43%	42%

Percent Positive Responses

The percent positive responses are comprised of those responses on the SEQ Likert scales that denote agreement (strongly, moderately, or slightly agree). Historically, the SEQ analysis included respondents who skipped an item in the reported percentages. This method artificially deflates the average ratings of the individuals who choose to respond. As a result in the increase in individual items left blank, the FY17 percent positive response analysis for each item (and category) excludes non-responses from the percentages. This method provides a more accurate measure of staff responses to each item. The FY15 and FY16 data have been recomputed to allow for comparison between years.

Tables 2 and 3 below display the percent of positive Parent responses overall and to each of the categories of the SEQ for the District and by School Level, respectively. As noted, parent responses should be viewed with caution due to the limited response rate.

Table 2: District-wide Parent Positive Responses Overall and by SEQ Categories.

School Year	Overall Positive	School Climate	Diverse Community	High Expectations	Individual Concerns	Parental Involvement
FY17	91.1	93.2	97.1	88.8	79.3	90.9
FY16	90.8	92.9	96.9	88.5	78.0	91.1
FY15	91.1	93.3	97.3	88.6	78.3	91.2

While a limited sample, the percent of parents responding positively to the SEQ overall and to each category has remained remained stable from FY15 to FY17. However, the items regarding school responsiveness to individual concerns continues to lag behind the other categories.

Table 3: Elementary, Middle, and High School Parent Positive Responses Overall and by SEQ Categories.

Level	School Year	Overall Positive	School Climate	Diverse Community	High Expectations	Individual Concerns	Parental Involvement
Elementary	FY17	93.6	95.7	98.2	90.0	81.1	95.1
	FY16	93.3	95.4	98.0	89.6	80.1	95.0
	FY15	93.3	95.5	98.2	89.6	79.9	94.9
Middle	FY17	88.7	90.5	96.8	87.3	79.2	86.6
	FY16	88.2	90.2	96.4	86.4	77.8	86.2
	FY15	88.0	90.0	96.4	85.7	78.3	85.9
High	FY17	85.1	87.6	93.9	86.4	73.1	81.3
	FY16	84.5	86.7	93.9	86.4	71.1	81.7
	FY15	85.3	87.8	94.3	87.0	72.7	81.8

The trend seen District-wide was also see across school levels, however, Elementary Parents expressed the highest positive responses followed by Middle and then High School. In addition, the positive responses to items relating to Individual Concerns and Parent Involvement were lower at the high school level.

Tables 4 and 5 display the percent of positive Student responses overall and for each of the categories of the SEQ for the District and by School Level.

Table 4: District-wide Student Positive Responses Overall and by SEQ Categories.

School Year	Overall Positive	School Climate	Challenging Assignment	Diverse Community	Parental Involvement	Individual Concerns	College Preparation
FY17	78.1	80.2	78.4	90.7	74.1	58.8	84.8
FY16	78.1	80.4	78.7	90.9	73.6	58.8	84.9
FY15	78.6	80.9	79.5	91.4	74.2	58.1	85.6

The overall percent of positive Student responses to the SEQ and each category remained stable from FY15 to FY17. A similar trend is evident in Middle and High School. Elementary responses did show slight declines overall and across the each category.
