

### **POLICY 3.16**

**4-C** I recommend that the Board adopt the proposed repeal of Policy 3.16, entitled "Out-of-Field Teaching Assignments."

[Contact: Darron Davis, PX 48953.]

#### **Repeal-Adoption**

#### **CONSENT ITEM**

- The Board approved development of this repeal of Policy at the repeal-development reading on September 22, 2010.
- This policy is being repealed in light of the fact Palm Beach County has "sunsetted" as a pilot program charter school district and the waiver was statutorily based.

## POLICY 3.16

### OUT-OF-FIELD TEACHING ASSIGNMENTS

- ~~1. **Purpose.** Pursuant to Fla. Stat. § 1003.62(2), this Policy implements Waiver # 5 under charter district status, approved by the State Board of Education ("SBE") on January 21, 2003, providing exemption from the reporting timeline for teaching assignments of certified teachers in a field not listed on the certificate, by the dates normally required under State Board of Education Rule 6A-1.0503(3). The Policy should be revised as necessary to maintain consistency with the Charter School District Contract with the SBE and should be repealed if charter district status is not renewed. The scope of the exemption and the practices authorized to replace the waived requirements are set forth below, substantially as presented to the SBE.~~
- ~~2. **Rationale.** Under requirements otherwise applicable, the District would need to have Board approval of out-of-field teacher assignments prior to each of the state student enrollment FTE survey weeks in October and February, which follows the hire date of the respective teachers. Due to the staggered timelines for hiring teachers and the established schedule of School Board meetings, the District is not able to have all teachers assigned out-of-field prior to each of the State's enrollment FTE Survey weeks, and failure to do so results in audit findings and levying of fines on the District. Due to increasing student enrollments in the opening weeks of each school semester, it is impossible to accurately project and fill all teaching positions with highly qualified teachers prior to the state required FTE survey schedule. In addition, staff adjustments are made for all schools, based upon student enrollment, several times throughout the school year. As a result of these adjustments, teaching units are added and/or reassigned based upon need and student count.~~
- ~~3. **Approved Alternative Practice.** When the State FTE survey week dates conflict with School Board meeting dates, the list of out-of-field teacher assignments will be submitted for Board approval at the subsequent Board meeting date. This method will continue to ensure that all out-of-field teacher assignments are Board approved. It is not the intent of the District to forgo teacher quality by assigning teachers to positions out of their subject area. As before, out-of-field teacher assignments will be done only if there are no other qualified and certified teachers available from the applicant pool or faculty pool.~~
- ~~4. **Impact on Students.** The District will continue to strive to hire the best-qualified teacher for the classroom to support student learning. The alternative practice will allow for a teacher selection process that is solely based on hiring the best-qualified teachers and may decrease the need to hire out-of-field teachers to meet an FTE reporting timeline requirement. Monies that have been lost to FTE audit findings for failure to timely report out-of-field teachers can, with this waiver, be used to provide coursework leading to certification for out-of-field teachers and for~~

the enhancement of instructional programs.

~~5. **Monitoring and Reporting.**--- The impact of this waiver will be measured by the District having an FTE audit that does not result in fines for failure to report out-of-field teaching assignments within the specified timeline. The District will monitor to ensure that all out-of-field teachers are reported to the School Board for approval during each semester of the fiscal school year. The status of all out-of-field teachers will be monitored to ensure they are meeting the timeline of their out-of-field agreement as required by State Board of Education rule and to determine their eligibility to remain in the particular teaching assignment for the next school year.~~
