

Results of Science Content Pre-Testing of Grade 3-5

During 2004-2005, Pine Jog implemented pre/post testing in science content knowledge of students in grades 3-5 at four designated professional development schools. A total of 355 students in 21 classes were tested. The test instruments were linked to the Sunshine State Standards and Grade Level Expectations for Science and to the integrated thematic classroom instruction.

NOTE: This assessment is on-going, and not all assessment data has been collected.

Assessment Data to Date
April 25, 2005

Grade Level	Pre-test Mean Score in Percentile (%) Correct Responses	Post-test Mean Score in Percentile (%) Correct Responses
Third (n=74)		
Cholee Lake (3 classes)	75	86
Melaleuca (2 classes)	69	77
Fourth (n=112)		
Melaleuca (2 classes)	49	66
Westward (3 classes)	57	68
Fifth (n=94)		
D.D. Eisenhower (3 classes)	69	77
Westward (2 classes)	56	61
