For modernization of existing schools and other schools with a high concentration of special program needs additional teaching spaces may be provided through the use of Resource Rooms and ESE Rooms to meet program capacity per the approval on January 21, 2003 of the Charter District Waiver.

The existing facilities will be analyzed by the project architect to determine appropriate usage of the buildings and site for necessary renovations and remodeling to meet SREF size standards, ADA requirements and other code issues.

Material Storage and/or Teacher Planning shall be folded into the classroom to create a classroom of 900 NSF. This will affect General Classrooms and Skills Development Laboratories. Science Classrooms shall be 900 NSF with shared Material Storage.
