2005/06 Community Child Care Center and School District Composite Scores**

	1 Star	2 Star	3 Star	4 Star
Child Care Centers*	4%	27%	46%	23%
School District PreK	0	0	85%	15%

* Child care centers provide services for children from birth to age 5. It is a national trend for the quality scores for care provided for infants and toddlers to be lower than those for prekindergarten (PreK). The District provides services for PreK students only and therefore the scores for child care centers and District PreK sites should not be compared against each other. Since it is the policy of the QIS to use the star ratings for improvement plans only, the star ratings of the child care centers are provided as composite scores. The scores for the District school sites are provided below.
