

This is the first major capital project construction contract award, therefore, a Periodic Performance Evaluation is not available. Project references and experience provided in this firm's proposal were evaluated by the Selection Committee during the selection process and validated by Construction Purchasing. In addition, Horus Constructions is currently providing Construction Management at Risk Services on three projects utilizing a CM at Risk Services contract from Hillsborough County Public Schools. These projects are for the mitigation of water intrusion at Pahokee MS, Roosevelt MS and Woodlands MS. The sum of these contracts is \$2,500,000. As reported by Program Management, to date, performance on these projects has been without issue and is on schedule.
