**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2006**

The School District of Palm Beach County, Florida's (the "District") discussion and analysis is designed to provide an objective and easy to read analysis of the District's financial activities for the fiscal year ended June 30, 2006, based on currently known facts, decisions or conditions. It is intended to provide a broad overview using a short-term and long-term analysis of the District's activities based on information presented in the financial report and fiscal policies that have been adopted by the seven elected members of the school board (the "Board"). Specifically, this section is designed to assist the reader in focusing on significant financial issues, provide an overview of the District's financial activity, identify changes in the District's financial position (its ability to address the next and subsequent year challenges), identify any material deviations from the financial plan (the approved budget) and identify individual fund issues or concerns.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments."

As with other sections of this financial report, the information contained within this MD&A should be considered only a part of a greater whole. The reader of this statement should take time to read and evaluate all sections of this report, including the notes that are provided in addition to this MD&A.

FINANCIAL HIGHLIGHTS

- The District's financial status as reflected in total net assets improved substantially this year by \$193.9 million or 13.6%, from \$1.4 billion as of June 30, 2005, to \$1.6 billion as of June 30, 2006. The increase in total net assets reflects increases in capital assets of \$358.0 million, offset by increases in current and long-term liabilities of \$166.9 million.
- Total revenues increased by \$209.0 million or 12.5%, from \$1.7 billion to \$1.9 billion when compared to the prior year. General revenue accounted for \$1.7 billion, or 91.3%, of all revenues, an increase of \$196.9 million or 13.0%. This increase is primarily attributed to an increase in property taxes and local sales tax revenue, which increased by \$65.1 million or 120.6%. Program specific revenue in the form of charges for services, grants and contributions accounted for \$163.1 million, or 8.1% of all revenues.
- The District had \$1.7 billion in expenses related to programs, an increase of \$158.4 million or 10.4%, which was offset by \$163.1 million in program specific charges for services, grants and contributions. General revenues, primarily property taxes and Florida Education Finance Program (FEFP) revenues were adequate to provide for these programs.
- As of the close of the current fiscal year, the District's governmental funds reported combined fund balances of \$675.6 million. The General Fund (the primary operating fund), reflected on a current financial resources basis, ended the year with a fund balance of \$99.2 million. Of this amount, \$37.3 million is unreserved, undesignated fund balance that is available for spending at the District's discretion. During the current year, General Fund revenues (including other financing sources) exceeded expenditures by \$5.6 million.
- The District's total long-term debt increased by \$96.9 million or 6.1%. The key factor contributing to the increase was the issuance of Certificate of Participation Series (COPS) 2006A for \$222.0 million offset by defeasance of COPS Series 1995A.

**MANAGEMENT’S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2006**

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of two parts – management’s discussion and analysis (this section) and the basic financial statements. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *district-wide financial statements* that provide both *short-term* and *long-term* information about the District’s *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District’s operations *in more detail* than the district-wide statements.
- The *governmental funds* statements tell how *basic* services like instruction and instructional support services were financed in the *short-term* as well as what remains for future spending.
- *Proprietary funds* statements offer *short-term* and *long-term* financial information about the activities the District operates *like businesses*, such as maintenance services.
- *Fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others.

The financial statements also include *notes* that explain some of the information in the statements and provide more detailed data.

Figure 1 summarizes the major features of the District’s financial statements, including the portion of the District’s activities they cover and the types of information they contain. The remainder of this overview section of management’s discussion and analysis highlights the structure and contents of each of the statements.

District-wide Statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes *all* of the District’s assets and liabilities. All of the current year’s revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2006**

The two district-wide statements report the District's *net assets* and how they have changed. Net assets – the difference between the District's assets and liabilities – are one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net assets are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District, the reader needs to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements, all the District's activities are reported as governmental activities.

- *Governmental activities* – All of the District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and state formula aid finance most of the activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (like repaying its long-term debts) or to show that it is properly using certain revenues (like federal grants).

The District has three kinds of funds:

- *Governmental funds* – Most of the District's basic services are included in governmental funds, which generally focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out, and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, the District provides additional information with the governmental funds statements that explains the relationship (or differences) between them.
- *Proprietary funds* – Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the district-wide statements. There are two types of proprietary funds:
 - *Enterprise funds* account for goods and services provided to those outside the district, generally on a user-charge basis. Currently, the district has no enterprise funds.
 - *Internal service funds* report activities that provide supplies and services for the District's other programs and activities. The District currently has one internal service fund – the Maintenance Services fund.

**MANAGEMENT’S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2006**

- *Fiduciary funds* – The District is the trustee, or *fiduciary*, for assets that belong to others, such as the scholarship fund and the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the district-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The District’s net assets were \$1.6 billion at June 30, 2006. The largest portion of the District’s net assets, \$1.4 billion or 86.7%, reflect its investment in capital assets (i.e. land, buildings, furniture and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District’s investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District’s net assets (\$335.5 million) represent resources that are subject to external restrictions on how they may be used.

The unrestricted net assets of governmental activities represent the accumulated results of all past years’ operations. The adoption of GASB 34 resulted in the District having to expense its long-term compensated absences. This resulted in the recording of \$153.1 million in expenses against the Statement of Net Assets balance, which caused a shortfall of unrestricted net assets. The same situation holds true for the prior year.

Capital assets (net) increase of \$356.2 million or 14.2% over prior year, primarily reflects the completion of three (3) new schools and modernization/replacement of six (6) existing schools.

The analysis in Table 1 below, and Table 2 on page 5, focuses on the summary of net assets and summary of changes in net assets for the District’s governmental activities.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2006**

The results of this year's operations for the District as a whole are reported in the Statement of Activities. Table 2, takes the information from that statement and rearranges them slightly so the reader can see the total revenues for the year compared to fiscal year 2005.

As reported in the Statement of Activities, the cost of all of the governmental activities this year was \$1.7 billion. The amount that the taxpayers ultimately financed for these activities through District taxes was \$1.5 billion because some costs were paid by those who benefited from the programs (\$45.9 million), or by other governments and organizations who subsidized certain programs with grants and contributions (\$117.1 million). The District paid for the remaining "public benefit" portion of the governmental activities with \$1.0 billion in property taxes, \$498.0 million in grants and contributions not restricted to specific programs, \$119.1 million in local sales taxes, and \$78.5 million with other general revenue.

Capital grants and contribution increased \$9.7 million or 24.6% which is primarily attributed to loss recoveries associated with Hurricane Wilma. The increase of 12.3% in property tax revenue is due to an increase in property values. Local sales tax revenue resulted in revenue totaling \$119.1 million which is a 120.6% increase over the prior year. This increase reflects the receipt of local sales tax revenue for the entire year as opposed to the prior year in which the receipt of revenue began in January 2005.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2006**

Facilities acquisition and construction increased by \$46.1 million, or 151.1%, which reflects the District's strategy to continue with its planned construction projects now that the necessary funding from local sales tax revenue was in place. Central services' decrease of 40.5% is due to reorganization. Two categories were established during fiscal year 2006 to account for some expenditures that previously had been captured under central services. These categories are instruction related technology which totaled \$5.1 million and is now grouped with instructional support services, and administrative technology services of \$5.2 million which has its own caption in table 2. The increase in 29.2% of other expenses reflects an increase in special items resulting from loss on disposal of capital assets.

Table 3 presents the costs of three major District activities: instruction, instructional support services, operation and maintenance of plant. The table also shows each activity's *net cost* (total cost less revenues generated by the activities). The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

FINANCIAL ANALYSIS OF THE DISTRICT’S FUNDS

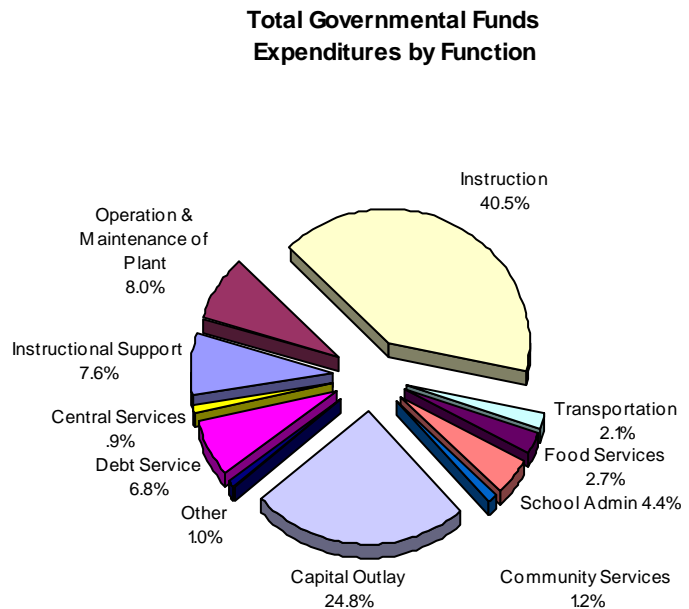

As of June 30, 2006, the District’s governmental funds reported a combined fund balance of \$675.6 million, which is a decrease of \$34.7 million or 4.9% from the prior year.

The General Fund, which is the chief operating fund of the District and is always considered a major fund, had an ending fund balance of \$99.2 million at June 30, 2006. The fund balance of the District’s General Fund increased by \$5.6 million during the current fiscal year. At the end of the current fiscal year, unreserved, undesignated fund balance of the General Fund was \$37.3 million.

In the Capital Improvement Fund, revenue increased by \$36.3 million to \$251.4 million or 16.9%, from \$215.1 million in fiscal year 2006, due to higher property values.

Other Governmental Funds which represent a summarization of all the non-major governmental funds, ended the year with total fund balance of \$157.8 million.

The pie chart on above represents total expenditures from Governmental Funds classified by function.

General Fund Budgetary Highlights

Over the course of the year, the District revises its budget and brings amendments to the Board on a monthly basis. These amendments are needed to adjust to actual revenues received and direct resources where needed. The Board approves the final amendment to the budget after year-end. Schedules showing the District’s original budget and final amended budget, compared with actual amounts paid and received, are provided in the financial section.

There were revisions made to the 2005-2006 general fund original budget. FEFP revenue was decreased \$24.6 million, as a result of actual student enrollment less than projected by 6,416 students. Revenue from interest income exceeded the original budget by \$2.3 million due to rising interest rates. Local revenue from real estate taxes was \$11.2 million greater than original budget. Also, local revenue from the fee-based school age child care program was \$ 1.7 million higher than the original projection. Overall, budgeted revenue ended the year \$3.2 million higher than original budget.

Other financing sources increased \$14.9 million from original to final budget in 2005-06. This includes a \$4.7 million increase to the capital maintenance transfer and \$6.6 million in FEMA reimbursement. These two sources have been applied to hurricane expenditures related to recovery efforts from Hurricane Wilma. Initially, these hurricane expenditures were funded through the Board Contingency Reserve. The remaining \$3.6 million in other financing sources reflects insurance loss recoveries from workers compensation claims.

Net budgeted expenditures increased \$3.2 million from the original budget to the final amended budget. Amendments were needed to account for the reduction in student enrollment and related staffing, hurricane

related expenditures, increases in employee salaries and benefits, as well as pupil transportation and energy expenditures.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

As shown in Table 4 below, at June 30, 2006, the District had \$2.9 billion invested in a broad range of capital assets, including land, construction in progress, improvements other than buildings, buildings and fixed equipment, furniture, fixtures and equipment, motor vehicles, audio visual materials and computer software. This amount represents a net increase (including additions, deletions and depreciation) of \$358.0 million from last year. This year's net increase of \$358.0 million included the construction of three (3) new schools which opened in fiscal year 2006, and six (6) modernization projects.

Major capital asset additions included the completion of the following schools:

- Hidden Oaks Elementary
- L.C. Swain Middle School
- Seminole Ridge High School

Completed modernized schools included the following:

- Palm Beach Public Elementary
- S.D. Spady Elementary
- Meadow Park Elementary
- J.C. Mitchell Elementary
- Bak Middle School of the Arts
- Atlantic High School

The District anticipates capital additions will continue to increase due to an effort being made to reduce student overcrowding. The Notes to Financial Statements provide more information on capital assets.

Long-term Debt

As shown in Table 5, below, at the end of this year, the District had \$1.7 billion in debt outstanding compared to \$1.60 billion last year, an increase of \$96.9 million or 6.1%. The key factor contributing to the increase was the issuance of COPS 2006A for \$222.0 million offset by defeasance of COPS Series 1995A. See Note 9 of the Notes to the Financial Statements for more information on long-term liabilities.

The District’s general obligation debt and certificates of participation are rated Aa3 and A1 by Moody’s Investors Service, and AA and AA- by Standard and Poor’s Corporation, and AA- and A+ by Fitch Ratings Services.

The District is subject to state laws that limit the amount of debt outstanding to 10.0% of the non-exempt assessed valuation. At June 30, 2006, the statutory limit for the District was approximately \$13.0 billion, providing additional debt capacity of approximately \$12.9 billion.

Other long-term obligations include liability for compensated absences and estimated claims liability.

FACTORS BEARING ON THE DISTRICT’S FUTURE

The State of Florida, by constitution, does not have a state personal income tax and therefore the state operates primarily using sales, gasoline and corporate income taxes. State funds to school districts are provided primarily by legislative appropriations from the state’s general revenue funds under the FEFP. The level of tourism in the state influences the amount collected. Changes in the anticipated amount of revenues collected by the state directly impact the revenue allocation to the District.

The focus of the State finance program bases financial support for education upon the individual student participating in a particular educational program rather than upon the number of teachers or classrooms. FEFP funds are primarily generated by multiplying the number of full-time equivalent students (FTEs) in each of the educational programs by cost factors to obtain weighted FTEs. Weighted FTEs are then multiplied by a base student allocation and by a district cost differential in the major calculation to determine the State and local FEFP funds. Program cost factors are determined by the Legislature and represent relative cost differences among the FEFP programs.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2006**

State Support

Funds for state support to school districts are provided primarily by legislative appropriations. The major portion of state support is distributed under the provisions of the FEFP. State funds appropriated to finance the FEFP in 2006-2007 is \$6.7 billion for student enrollment associated with the 180 day regular school year and students in juvenile justice programs during the summer. A separate appropriation of \$410.8 million for Workforce Development was made to finance adult vocational and adult general education. While a number of tax sources are deposited in the State's General Revenue Fund, the predominant tax source is the sales tax.

Statewide, proceeds from the 2006-2007 Florida Lottery will be used to finance the following general fund K-12 appropriations: District Discretionary Lottery Funds, \$129.3 million and School Recognition Funds, \$134.2 million.

In addition, funds are appropriated to meet other needs by means of categorical programs and special allocations. These include Class Size Reduction, \$2.2 billion, Instructional Materials Program, \$266.7 million, Student Transportation, \$483.0 million, Teacher Lead Program, \$45.0 million, and Reading, \$111.8 million.

Local Support

Local revenue for school support is derived almost entirely from property taxes. Each of the 67 school districts in the state is a countywide district.

Each school board participating in the state allocation of funds for current operation of schools must levy the millage set for its required local effort taxes. The Legislature set the amount of \$7.4 billion as required local effort for 2006-2007. Each district's share of the state total of required local effort is determined by a statutory procedure that is initiated by certification of the property tax valuations of each district by the Department of Revenue.

**DISTRICT SCHOOL BOARD OF PALM BEACH COUNTY
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET ASSETS
For the Fiscal Year Ended June 30, 2006**

Total Fund Balances - Governmental Funds 675,590,336.04

Amounts reported for *governmental activities* in the statement of net assets are different because:

Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds.

Cost of Assets	3,576,703,643.88	
Accumulated Depreciation	<u>(717,377,050.86)</u>	2,859,326,593.02

Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the funds. 15,096,110.14

Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets. 24,992.76

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds.

Bonds payable	\$110,280,222.56	
Certificates of Participation payable	1,592,010,761.17	
Obligations under capital lease	4,316,000.00	
Compensated absences	153,087,997.70

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2006**

Net Change in Fund Balances - Governmental Funds **(\$34,657,789.02)**

Amounts reported for *governmental activities* in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capitalized capital outlays (\$444,314,380.91) exceeds depreciation expense (\$81,467,428.82) in the current period.	362,846,952.09
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets.	(240,451,394.55)
Governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.	(14,000,754.66)
Repayment of bond principal is an expenditure in the governmental funds but the repayment reduces long-term liabilities in the statement of net assets.	58,846,782.31
Bond refunding proceeds provide current financial resources to governmental funds. Bond refunding payments are expenditures in the governmental funds. This is the amount by which refunding payments (\$77,204,400.00) exceed refunding proceeds (\$0.00) in the current period.	77,204,400.00
The net effect of various miscellaneous transactions involving capital assets (sales, trade-ins, and donations) is to increase net assets.	(7,684,026.96)
Expenses in the statement of activities that do not require the use of current financial resources are not reported in the governmental funds.	(8,223,373.71)
An internal service fund is used by management to charge the cost of maintenance, activities to individual funds. The net revenue (expense) of the internal service fund is reported with governmental activities.	<hr style="width: 100%;"/> 229.09

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2006

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the School District of Palm Beach County, Florida (the "District") have been prepared to conform with Accounting Principles Generally Accepted in the United State of America ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. Pursuant to Florida Statutes, Section 1010.01, the Superintendent of Schools is responsible for keeping records and accounts of all financial transactions in the manner prescribed by the State Board of Education. The following is a summary of the more significant of these policies:

A. Reporting Entity

The District and its governing board are organized and operated under Section 4, Article IX, of the Constitution of Florida and Chapter 1001 of Florida Statutes. The District's boundaries are coterminous with those of Palm Beach County. Management of the School District is independent of county and city governments. The membership of the governing board of the District (the "Board") consists of seven members elected by countywide vote for overlapping four-year terms. The Superintendent is appointed by the Board to act as executive officer of the District.

For financial reporting purposes, the accompanying financial statements include all of the operations over which the District is financially accountable. The District is financially accountable for organizations that make up its legal entity, as well as legally separate organizations that meet certain criteria. In accordance with GASB 14, "The Financial Reporting Entity," as amended by GASB 39, "Determining Whether Certain Organizations Are Component Units", the criteria for inclusion in the reporting entity involve those cases where the District or its officials appoint a voting majority of an organization's governing body, and is either able to impose its will on the organization or there is a potential for the organization to provide specific financial benefits to or to impose specific financial burdens on the District or the nature and significance of the relationship between the District and the organization is such that exclusion would cause the District's financial statements to be incomplete. Applying this definition, District management has determined that the component units and/or joint ventures reportable within the accompanying financial statements are the Palm Beach School Board Leasing Corporation, (the "Corporation") and thirty-eight of the forty-one Charter Schools operating within the District. The thirty-eight Charter Schools are included due to the fact that the exclusion of them would cause the District's financial statements to be incomplete. The other four District Charter Schools are component units of other entities.

Blended Component Unit - The Corporation's sole purpose is to provide for financing and construction of certain District school facilities. Additionally, the Corporation is legally separate from the District and the Board of the Corporation consists of the seven Board members of the District. Therefore, the financial activities of the Corporation have been blended (reported as of if it were part of the District) with those of the District. The Corporation does not publish individual component unit financial statements.

Discretely Presented Component Units - Florida State Statute 1002.33 authorized the establishment of Charter Schools as part of the State's education program. All Charter Schools are fully recognized as public schools. As such, Charter Schools are funded on the same basis and are subject to the same financial reporting requirements as the District. Additionally, all students enrolled in Charter Schools are included in the District's total enrollment. Currently, there are forty-two Charter Schools operating within the School District of Palm Beach County meeting the criteria for presentation as a discretely presented component unit.

Since the District is independent of and is not financially accountable for other governmental units or civic entities, these financial statements represent the operations of the District, the Corporation, as well as all of the funds of the District as a governmental unit.

B. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Government-wide Financial Statements

The Statement of Net Assets and the Statement of Activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2006

manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements

Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Nonmajor funds are aggregated and presented in a single column. All of the component units are nonmajor and are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

The Governmental Funds are accounted for on the "flow of current financial resources" measurement focus. This measurement focus is based on the concept of accountability, which includes measuring interperiod equity – whether current year revenues were sufficient to pay for current year services. The Proprietary Fund is accounted for on an "economic resources" measurement focus. Accordingly, the Statement of Revenues, Expenses and Changes in Fund Net Assets for the Proprietary Fund reports increases and decreases in total economic net worth. The private purpose trust fund is reported using the economic resources measurement focus.

GOVERNMENTAL FUNDS

Governmental Funds are those through which most District functions are financed. The acquisition, use and balances of the District's expendable financial resources and the related liabilities (except those accounted for in the Proprietary Fund and Fiduciary Funds) are accounted for through Governmental Funds. The measurement focus is upon determination of changes in financial resources rather than upon determination of net income. The following are the District's major governmental funds:

General Fund

The General Fund is the primary operating fund of the District. Ad valorem tax revenues, revenues from the Florida Education Finance Program ("FEFP") and other receipts not allocated by law or contractual agreement to other funds are accounted for in this fund. Similarly, general operating expenditures, fixed charges, and capital improvement costs that are not paid through other funds are paid from this fund.

Certificates of Participation ("COPS") Debt Service Fund

The COPS debt service fund accounts for the repayment of the certificates of participation.

Capital Improvement Capital Projects Fund

The capital improvement capital projects fund accounts for locally received funds, primarily ad valorem tax revenue, for the acquisition, construction or renovation of capital facilities, including land and equipment.

Certificates of Participation ("COPS") Capital Projects Fund

The COPS capital projects fund accounts for construction projects and equipment purchases financed by the sale of certificates of participation.

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2006

Sales Tax Capital Projects Fund

The sales tax capital projects fund accounts for locally received funds, primarily sales tax revenue, for the acquisition, construction or renovation of capital facilities, including land and equipment.

Other Capital Projects Fund

The other capital projects fund account for impact fees and miscellaneous state revenues received for the acquisition, construction and renovation of capital facilities.

Other Governmental Funds

The other governmental funds are a summarization of all the non-major governmental funds.

PROPRIETARY FUNDS

Proprietary funds are used to account for ongoing organizations and activities, which are operated and financed in a manner similar to those found in the private sector. The measurement focus is upon the determination of net income. The only proprietary fund that the District has is an internal service fund.

Internal Service Fund

Internal service funds are used to account for the financing of goods and services provided by one department to another on a cost reimbursement basis. The District's only internal service fund accounts for the District's maintenance services.

FIDUCIARY FUNDS

Fiduciary Funds are used to account for assets held by the District on behalf of outside related organizations or on behalf of other funds within the District.

Agency Funds

Agency Funds consist of activity funds, which are established at each school to account for the receipts and disbursements of various school activities administered for the general welfare of the students and completion of certain planned objectives and special programs of school groups. The District retains no equity interest in these funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Private Purpose Trust Fund

A trust fund was established in January 1993 and is used to account for a District supported Florida Future Educators of America. Revenues consist of employee donations and interest income. Expenditures represent scholarships for future teachers, which are awarded in accordance with the trust requirements.

BASIS OF ACCOUNTING

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

Modified Accrual

Under the modified accrual basis, revenues are recognized in the accounting period in which they become susceptible to accrual, i.e., both available and measurable. "Measurable" means the amount of the transaction

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2006

can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Significant revenues susceptible to accrual include ad valorem taxes, reimbursable-type grants and interest on investments. The District considers all revenues (with the exception of the expenditure-driven grants) as available if they are collected within sixty (60) days after year-end. The expenditure driven grants are considered available if received within one year from the balance sheet date. Property tax revenue is recognized when taxes are received, except at year end when revenue is recognized for taxes received by the District within 60 days subsequent to fiscal year end. Expenditures are recognized in the accounting period in which the liability is incurred. However, exceptions include the amount of unmatured principal and interest on general long-term debt and compensated absences which are recognized when due.

In applying the susceptible to accrual concept to revenues from federal and State sources, the legal contractual requirements of the numerous individual programs are used as guidance. Revenue from grants and entitlements is recognized when all eligibility requirements have been satisfied. There are, however, essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before the District will receive any amounts; therefore, revenues are recognized based upon the occurrence of expenditures. In the other type, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed legal and contractual requirements. These resources are reflected as revenues at the time of receipt or earlier if the susceptible to accrual criteria are met. In all cases, monies received before the revenue recognition criteria have been met are reported as deferred revenue.

Accrual

Under the accrual basis of accounting, revenues are recognized in the period earned and expenses are recognized in the period incurred.

Revenue Recognition

State Revenue Sources – Revenues from State sources for current operations are primarily from the Florida Education Finance Program ("FEFP"), administered by the Florida Department of Education ("FDOE"), under the provisions of Chapter 1011, Florida Statutes. The District files reports on full time equivalent ("FTE") student membership with the FDOE. The FDOE accumulates information from these reports and calculates the allocation of FEFP funds to the District. After review and verification of FTE reports and supporting documentation, the FDOE may adjust subsequent fiscal period allocations of FEFP funding for prior year errors disclosed by its review. Normally, such adjustments are treated as reductions of revenue in the year the reduction is made.

The District receives revenue from the State to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical educational programs. Any unused money is returned to the FDOE and so recorded in the year returned.

The District, at various times, receives authorization for the expenditure of funds for Public Education Capital Outlay ("PECO"), Classrooms First, Effort index grant and Class size reduction projects from the State of Florida. For State reporting purposes, PECO, Classrooms First, Effort index grant and Class size reduction revenue is recognized at the time authorization is approved by the State. For financial reporting purposes however, as there is no assurance that all funds made available will be spent and since authorizations are made available for several years, revenue is not recognized until the expenditure is incurred in both the government-wide financial statements and the fund financial statements.

Property Taxes – On an accrual basis, property tax revenue anticipated to be collected is recognized in the

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2006

fiscal year for which it is levied. Delinquent taxes collected in subsequent periods are recognized as revenue during the fiscal year in which they are received.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service fund are charges for maintenance services. Operating expenses include the cost of the services along with payroll and related expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed.

C. Budgetary Policies

Revenues and expenditures are controlled by budgetary systems in accordance with various legal and administrative requirements that govern the District's operations. The budget represents a process through which policy decisions are made, implemented and controlled. The budget is adopted on a basis consistent with GAAP, except for encumbrances, and the PECO, Classrooms First, Effort index grant and Class size reduction revenues. The budgetary process includes encumbrances and the aforementioned revenues in the current year budget. The encumbrances and revenues are reported as expenditures or revenues respectively, on the budgetary basis of accounting.

Annual budgets are legally adopted for all funds except the fiduciary funds. The budget amounts for revenues and expenditures reflect all amendments to the original budget through September 6, 2006, the date of the final amendment approved by the Board. Significant dates in the budgeting timetable follow:

1. The Palm Beach County Property Appraiser certifies to the District the taxable value of all nonexempt District property by July 1 of each year, or the Clerk of the Circuit Court is required to certify an interim tax roll.
2. Within 24 days of tax roll certification, the Board considers and approves for advertising a tentative budget.
3. Within 29 days after tax roll certification, the District advertises the tentative budget and the millage rates therein.
4. A public hearing to adopt the tentative budget and proposed millage rate is held not less than two nor more than five days after the budget is advertised.
5. Within 35 days of tax roll certification, the District notifies the Palm Beach County Property Appraiser of proposed millage rates.

A final public hearing within 80 days, but not less than 65 days, after tax roll certification, the Board adopts the District budget.

The major functional level is the legal level of budgetary control. Per Board policy, management is authorized to make budget amendments at function level with Board approval. All interim budget amendments between major functional areas within each fund are submitted to the Board for approval. All budget amendments that are categorized as federal or State grants must have State approval as well as Board approval. The Board is not legally authorized to approve expenditures that exceed appropriations; therefore, during fiscal year 2006, budget amendments were approved as necessary to comply with legal requirements.

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2006

Unreserved appropriations are canceled at the end of the fiscal year. However, encumbered appropriations for funds do not lapse at the end of the fiscal year. Undesignated fund balances at June 30, 2006 for funds under budgetary control have been reappropriated for the fiscal year 2007 operating budget within the appropriate fund. Programs reserved for carryover include all State categorical grants required to be expended on specific programs and District approved carryover programs.

D. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded to reserve a portion of an applicable appropriation, is utilized for budgetary control purposes. Encumbrances are not the equivalent of expenditures, and accordingly, amounts reserved for encumbrances at the governmental fund level indicate that portion of the fund balance segregated for expenditure upon vendor performance.

E. Cash, Cash Equivalents and Investments

The District maintains a Treasurer's pool for the District's cash and investments. Each fund's portion of the pool is presented on the financial statements. Investments are stated at fair value except for amounts invested in the State of Florida State Board of Administration ("SBA") Local Government Surplus Trust Fund which are reported at amortized cost. Investments consist of direct obligations of the United States Treasury, U.S. Government Agency Securities, and money market funds investing in U.S. Treasury Securities. For purposes of the statement of cash flows, cash equivalents are considered to be the money market funds and all highly liquid investments with a maturity of three months or less when purchased.

F. Inventories

Inventories are valued at cost, which approximates market, using the average cost method. The District's inventories include various items consisting of school supplies, paper, books, maintenance items, transportation items, commodities, etc. USDA commodities received from the federal government are recorded at the value established by the federal government using the average cost method. Inventoriable items are recorded as expenditures when shipped to schools and department offices (the consumption method). The reserve for inventories at the governmental fund level is equal to the amount of inventories at year-end to indicate the portion of the governmental fund balances that are not available for appropriation and expenditure.

G. Capital Assets

Capital assets represent the cumulative amount of capital assets owned by the District. Purchased assets are recorded as expenditures in the fund financial statements and are capitalized at cost on the government-wide statement of net assets. In the case of gifts or contributions, such assets are recorded at fair market value at the time received.

The District's capitalization levels are \$1,000 on tangible personal property, \$100,000 on building improvements and \$50,000 on improvements other than buildings. Other costs incurred for repairs and maintenance are expensed as incurred. All reported capital assets except land and construction in progress are depreciated. Depreciation is computed using the straight-line method over the following estimated useful lives:

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2006

<u>Description</u>	<u>Estimated Lives</u>
Furniture, Fixtures and Equipment	3 – 15 years
Motor Vehicles	5 – 10 years
Audio/Video Materials & Software	3 – 5 years
Buildings and Improvements	15 – 50 years
Improvements Other Than Buildings	15 years

H. Long-term Debt

In the fund-level financial statements, governmental funds report the face amount of debt issued, as well as any premiums (discounts) as other financing sources (uses). Debt issuance costs are reported as debt service expenditures. In the government-wide financial statements, long-term debt is reported as liabilities in the statement of net assets. Debt premiums, discounts, issuance costs, as well as deferred amounts on refundings, are deferred and amortized over the life of the debt.

I. Self Insurance

The District is self-insured for portions of its general and automobile liability insurance and workers' compensation. The estimated liability for self-insured risks represents an estimate of the amount to be paid on insurance claims reported and on insurance claims incurred but not reported (See Note 7). Consistent with GAAP guidelines, for the governmental funds, in the fund financial statements, the liability for self-insured risks is considered long-term and therefore, is not a fund liability and represents a reconciling item between the fund level and government-wide presentations. An expenditure is recognized in the governmental fund as payments come due each period.

J. Compensated Absences

Compensated absences are payments to employees for accumulated vacation and sick leave. These amounts also include the related employer's share of applicable taxes and retirement contributions. District employees may accumulate unused vacation and sick leave up to a specified amount depending on their date of hire. Vacation and sick leave is payable to employees upon termination or retirement at the current rate of pay on the date of termination or retirement. The costs of vacation and sick leave benefits are budgeted and expended in the respective operating funds when payments are made to employees.

The District uses the vesting method to calculate the compensated absences amounts. The entire compensated absence liability is reported on the government-wide financial statements. The current portion is the amount estimated to be used in the following year. Consistent with GAAP guidelines, for the governmental funds, in the fund financial statements, all of the compensated absences are considered long-term and therefore, are not a fund liability and represents a reconciling item between the fund level and government-wide presentations. An expenditure is recognized in the governmental fund as payments come due each period, for example, as a result of employee resignations and retirements.

K. Reserves of Fund Equity

Portions of Fund Equity that have been reserved indicate the amount of fund balance that cannot be appropriated for expenditures since it is legally segregated for a specific future use. In addition, the District established a reservation of Fund Equity for Board Contingency that will ultimately accumulate to 3% of the total annual General Fund appropriations and transfers.

L. Implementation of New Accounting Principle

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2006

The District adopted the provisions of GASB Statement No. 44, Economic Condition Reporting: The Statistical Section. This Statement amends the previous statement that guides in the preparation of the statistical section. This Statement improves the understandability and usefulness of the statistical section information by addressing the comparability issues that have developed by adding information from the new financial reporting model required by GASB Statement No. 34. Accordingly, the statistical section has been revised to conform to the provisions of GASB Statement No. 44.

M. Accounting Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

2. AD VALOREM TAXES

The Board is authorized by Florida Statutes to levy property taxes for District operations, capital improvements and debt service. Property taxes consist of ad valorem taxes on real and personal property within the District. The Palm Beach County Property Appraiser assesses property values and the Palm Beach County Tax Collector collects the property taxes.

Property values are assessed as of January 1 each year. The Board levies the property tax at the final budget hearing each year based on the assessed valuation of all non-exempt property. This levy finances the expenditures of the current fiscal year. Tax bills are mailed by the Palm Beach County Tax Collector on November 1 and are due no later than April 1. After this date, taxes become an enforceable lien on property. Discounts of up to four percent are available for early payment. The majority of ad valorem taxes are collected in November and December and remitted to the School Board. Section 197.383, Florida Statutes, requires the Palm Beach County Tax Collector to distribute the taxes collected to each taxing authority at least four times during the first two months after the tax roll comes into the Tax Collector's possession, and at least once per month thereafter. Taxes are considered delinquent if not paid prior to April 1. State law provides for enforcement of collection of taxes by the sale of tax certificates on real property and for levy upon, seizure and sale of personal property after the Palm Beach County Tax Collector initiates a sequence of required procedures resulting in a court order to carry out the action.

The State Legislature prescribes the maximum non-voted millage that may be levied by the Board for each fiscal year. The total millage rate levy was 8.106 mills and the total assessed value on which the 2005-06 levy was based was \$130,262,743,363. Gross taxes levied were \$1,055,909,798. Total revenue, net of discounts, was \$1,018,634,725. A portion of the taxes levied for the Local Capital Improvement Capital Project Fund, designated for repairs and maintenance programs, are transferred to the General Fund as provided by Chapter 1013, Florida Statutes. For fiscal year 2006, the maintenance transfer amounted to \$43,704,811.

3. CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash and Cash Equivalents

Florida Statutes authorize the deposit of District funds in demand deposits or time deposits of financial institutions approved by the State Treasurer and are defined as public deposits. All District public deposits are held in qualified public depositories pursuant to chapter 280, Florida Statutes, the "Florida Security for Public Deposits Act." Under the act, all qualified public depositories are required to pledge eligible collateral having a market value equal to or greater than the average daily or monthly balance of all public deposits times the depository's collateral pledging level. The collateral pledging level may range from 50 percent to 125 percent depending upon the depository's financial condition and the length of time that the depository has

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2006

been established. All collateral must be deposited with the State Treasurer. Any losses to public depositors resulting from insolvency are covered by applicable deposit insurance, sale of securities pledged as collateral and, if necessary, assessment against other qualified public depositories of the same type as the depository in default. All bank balances of the District are fully insured or collateralized. At June 30, 2006, the carrying amount of the District's cash deposits was \$3,731,981 and the bank balance was \$23,075,374. The carrying amount of the School Internal Funds cash deposits was \$13,674,711.

The District receives interest on all collected balances in its cash accounts from the qualified public depository acting as its banking agent. Interest earnings are allocated to all funds based on the average daily balance of each fund's equity in the Treasurer's Pool.

Cash Equivalents consist of amounts invested in the SBA Local Government Surplus Funds Trust Fund. This investment pool operates as a Securities and Exchange Commission Rule 2a7-like external investment pool under investment guidelines established by Section 215.47, Florida Statutes. The District's direct investment in the pool of \$832,362,506 is reported at amortized cost. As of June 30, 2006, the Local Government Investment Pool was not rated by a nationally recognized statistical rating agency.

Investments

The District's investment policy permits investments in the SBA Local Government Surplus Funds Trust Fund, securities of the United States Government, U.S. Government Agencies, federal instrumentalities, interest bearing time deposit or savings accounts, repurchase agreements, commercial paper, corporate notes, bankers' acceptances, state and/or local government debt, and money market mutual funds. The District's investment advisor used the effective duration method to calculate effective duration measures for the securities held by the District. Besides measuring the sensitivity of the securities market value to changes in interest rates, the effective duration method accounts for any call (early redemption) features which a security may have.

As of June 30, 2006, the District had the following unrestricted cash and investments and maturities:

Interest Rate Risk

To limit exposure to fair value losses resulting from increases in interest rates, the District's Investment Policy limits operating funds to maturities of two years or less. Investments of reserves, project funds, debt proceeds and other non-operating funds ("core funds") shall have a term appropriate to the need for funds and in accordance with debt covenants, but in no event shall exceed five (5) years and the average duration of the funds as a whole may not exceed three (3) years. The District's investments in the Federal Home Loan Bank mature between June 2007 and December 2008. The District's investments in the Federal Home Loan Mortgage Corporation mature between August 2006 and November 2008. The District's investments in the Federal National Mortgage Association mature between December 2006 and January 2009. As of June 30, 2006, the District held approximately \$16 million in market value of callable securities issued by Federal Instrumentalities which permit the issuer to redeem the securities prior to their original maturity date. A decrease in interest rate levels could trigger calls on these securities, forcing the District to reinvest the proceeds in lower-yielding securities.

Credit Risk

The District's Investment Policy lists the authorized investment types as well as the minimum allowable credit rating for each investment type. Corporate notes purchased for investment must be issued by corporations organized and operating within the United States or by depository institutions licensed by the United States that have a long term debt rating, at the time of purchase, at a minimum "Aa" by Moody's and a minimum long term debt rating of "AA" by Standard & Poor's ("S&P"). The maximum length to maturity for corporate notes shall be three (3) years from the date of purchase. As of June 30, 2006, the District held \$5.4 million of corporate notes with S&P ratings of AA-. All investments in the Federal Home Loan Bank, Federal Home Loan Mortgage Corporation and the Federal National Mortgage Association were rated AAA by S&P. All other rated investments were rated AAA by S&P. As of June 30, 2006, the SBA Local Government Investment Pool was not rated by a nationally recognized statistical rating agency.

Concentration of Credit Risk

The District's Investment Policy specifies the maximum percentage allocation to any single investment type as

well as the maximum percentage holding per issuer. Up to 100% of the portfolio may be invested in the SBA Local Government Surplus Funds Trust Fund or securities of the United States Government. Investments in Federal Instrumentalities may be no greater than 80% of the portfolio with a maximum of 50% invested with any single issuer. Corporate notes are limited to 15% of the portfolio and no greater than 5% may be in a single issuer.

As of June 30, 2006, all District investments were in compliance with the District's Investment Policy and did not exceed portfolio allocation or issuer maximums.

Custodial Risk

The District's investment policy requires that all securities, with the exception of certificates of deposit, be held with a third party custodian; and all securities purchased by, and all collateral obtained by the District should be properly designated as an asset of the District. The securities must be held in an account separate and apart from the assets of the financial institution. A third party custodian is defined as any bank depository chartered by the federal government, the state of Florida, or any other state or territory of the United States which has a branch or principal place of business in the state of Florida as defined in § 658.12, F.S., or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in the state of Florida. Certificates of deposit will be placed in the provider's safekeeping department for the term of the deposit.

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2006

Security transactions between a broker/dealer and the custodian involving the purchase or sale of securities by transfer of money or securities are made on a "delivery vs. payment" basis, if applicable, to ensure that the custodian will have the security or money, as appropriate, in hand at the conclusion of the transaction. As of June 30, 2006, the District's investment portfolio was held with a third-party custodian.

4. DUE FROM OTHER AGENCIES

At June 30, 2006, the District had a total of \$101,450,932 in "Due from other agencies". Approximately \$21 million is due from federal, State and local governments for various grant programs. Approximately \$49 million and \$24 million is due from the State for the Class Size Reduction Program and Public Education Capital Outlay, respectively. Approximately \$6 million is due from the Federal Emergency Management Agency for damages sustained by recent hurricanes. Another \$1 million is due from other state and local agencies for miscellaneous items.

5. INTERFUND ACTIVITIES

Due to/from other funds consisted of the following balances at June 30, 2006:

	<u>Interfund Receivables</u>	<u>Interfund Payables</u>
General Fund	\$ 17,340,228	\$ -

FOR THE YEAR ENDED JUNE 30, 2006

7. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; administrative errors and omissions; injuries to employees, students and guests; as well as natural disasters. The District is completely self-insured for errors and omissions as well as workers' compensation losses. Losses involving auto and general liability claims are limited (generally) by provisions of the Florida State Statute 768.28. These self-insured funds are administered by a third party. The District purchases commercial insurance for certain risks in excess of coverage and certain other risks of loss.

The claims liability is based on an actuarial evaluation performed by an independent actuary as of June 30, 2006 using a discounted rate factor of 5.0%. The liability consists of claims reported and payable, as well as an estimate for claims incurred but not reported. At June 30, 2006, the liability for insurance claims consisted of \$7,305,000 for auto and general liability and \$36,050,000 for workers' compensation.

A summary of changes in the estimated liability for self-insured risks is as follows:

	Fiscal Year Ended June 30, 2006	Fiscal Year Ended June 30, 2005
Beginning Balance	\$ 40,403,000	\$ 37,296,000
Additions:		
Current year claims and changes in estimates	20,374,006	21,486,289
Reductions:		
Claim payments	(17,422,006)	(18,379,289)
Ending Balance	\$ 43,355,000	\$ 40,403,000

The District maintains insurance coverage for other areas of risk. There have been no other significant reductions in insurance coverage. There have been no settlements that exceeded the District's coverage for fiscal years ended June 30, 2004, 2005 and 2006.

8. TAX ANTICIPATION NOTES PAYABLE

Tax Anticipation Notes

On October 20, 2005 the District issued Tax Anticipation Notes ("TANS"), Series 2005. This \$55,000,000 issue was sold at a coupon interest rate of 4.00 percent with an effective yield of 2.902 percent. Interest costs incurred on this issue for the year ended June 30, 2006, were \$1,125,447 net of a premium of \$402,330. Note proceeds were used to pay fiscal year 2006 District operating expenditures prior to the receipt of ad valorem taxes. TANS are subject to arbitrage rebate. There was no arbitrage rebate due on the TANS, Series 2005. The notes are due September 28, 2006.

Tax anticipation notes	<u>\$55,000,000</u>	<u>\$55,000,000</u>	<u>\$(55,000,000)</u>	<u>\$55,000,000</u>

Sales Tax Revenue Commercial Paper Notes

The District has established a commercial paper debt program whereby Sales Tax Revenue Commercial Paper Notes issued are payable from and secured by a pledge of the proceeds received by the District from the levy and collection of a one-half cent discretionary sales surtax pursuant to Section 212.055(6), Florida Statutes. On November 2, 2004, the voters of Palm Beach County approved the levy of a one-half cent sales surtax for the construction and modernization of public schools. Collection of the tax began on January 1, 2005 and the collection of the tax will cease on December 31, 2010.

The School Board has authorized the issuance of commercial paper notes in an aggregate amount not to exceed \$300,000,000. As of June 30, 2005, a total of \$250,000,000 had been issued.

January 12, 2005	School Board Authorized	\$300,000,000
January 21, 2005	Offering Statement	\$275,540,000
June 30, 2006	Outstanding Notes	\$250,000,000

The purpose of the notes is to finance, together with other available funds of the District, the cost of acquisition, construction and installation of, and renovation to, certain capital improvements and educational facilities within the District and to pay costs associated with the issuance of the notes.

The District's commercial paper debt program is administered as follows: The notes mature within 270 days of issuance, with interest payable at maturity based on market rates not to exceed 12%. The notes are not subject to redemption prior to maturity. As each group of notes comes due, new notes are issued to refinance the principal amount, and current revenues of the District are used to pay the interest amount due. In addition, through January 31, 2008, the District will maintain an irrevocable, direct-pay letter of credit with a bank to facilitate the refinance of outstanding notes. The District's intent is to continue to refinance maturing notes until such time as the notes are retired through the use of future years' revenues or through issuance of long-term debt. Outstanding obligations under this program are reported as short-term liabilities in the government-wide statement of net assets.

The compensated absences, claims and judgments and postretirement benefits are generally liquidated by the general fund.

State Board of Education Capital Outlay Bond Issues

State Board of Education Capital Outlay Bond Issues ("COBI") are serviced entirely by the State using a portion of the District's share of revenue derived from motor vehicle license taxes pursuant to Chapter 320, Florida Statutes, and Article XII, Section 9(d), of the Florida Constitution. The State Board of Administration determines the annual sinking fund requirements. The amounts necessary to retire bonds and interest payable are withheld from the entitlement to the District. Interest rates on the COBI bonds range from 3.00 percent to 6.00 percent. Interest is payable semiannually on January 1 and July 1. The bonds are redeemable at par.

General Obligation Bond Issues

General Obligation Bonds constitute general obligations of the District and are payable from ad valorem taxes levied on all taxable property within the District without limitation as to rate or amount. These bonds carry

FOR THE YEAR ENDED JUNE 30, 2006

interest rates ranging from 3.5% - 5.0%. Interest is payable semiannually on February 1 and August 1. All bonds issued are subject to arbitrage rebate, however, at June 30, 2006, the arbitrage was zero.

Defeased Debt

On March 22, 2005, the District issued certificates of participation (Series 2005A) of \$124,630,000 (par value) with interest rates ranging from 3.00% - 5.00% to advance refund certificate payments with interest rates ranging from 5.25% - 5.50% and a total par value of \$123,025,000. The Series 2005A certificates final maturity is August 1, 2022. The certificates were issued at a premium of \$10,394,473 and, after paying issuance costs of \$1,375,339, the net proceeds were \$133,649,134. The net proceeds plus an additional \$1,113,293 of the Series 2001A sinking fund monies were used to purchase U.S. government securities and those securities were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the certificates are called. The advance refunding meets the requirements of an in-substance defeasance and the liability for the refunded certificates was removed from the District's financial statements in fiscal year 2005. As a result of this advance refunding, the District reduced its total debt service requirements by \$6,323,335, which resulted in an economic gain (the difference between the present value of the debt service payments on the old and new debt) of \$3,804,355.

In prior years, the District defeased certain certificates of participation by creating separate irrevocable trust funds. New debt has been issued and the proceeds used to purchase U.S. Government Securities that were placed in an irrevocable trust with an escrow agent to provide for all future debt service payments. These investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and therefore removed as a liability from the financial statements. As of June 30, 2006, the total amount of defeased debt outstanding but removed from the District's financial statements amounted to \$397,015,000.

In a prior year, the District advance refunded certain certificates of participation which will meet the requirements of an in-substance debt defeasance on August 1, 2005 and August 1, 2006. At that time, the liability for the refunded certificates will be removed from the District's financial statements. At June 30, 2006 the amount of refunded debt to be defeased but still remaining on the District's financial statements amounts to \$20,115,000.

The District is subject to State laws that limit the amount of debt outstanding to 10% of the non-exempt assessed valuation. At June 30, 2006, the statutory limit for the District was approximately \$13.0 billion, providing additional debt capacity of approximately \$12.9 billion.

Capital Lease

The District entered into a lease agreement on May 12, 2006 that qualifies as a capital lease for accounting purposes and has been recorded at the present value of the future minimum lease payments as of the inception date of the lease. (See Note 6.)

The following is a schedule of the District's future minimum lease payments under the capital lease, and the present value of the net minimum lease payments as of June 30, 2006:

Certificates of Participation

On November 16, 1994, the District entered into a Master Lease Purchase Agreement (the "Master Lease") dated November 1, 1994, with the Palm Beach School Board Leasing Corporation, a Florida not-for-profit corporation, to finance the acquisition and construction of certain facilities, and equipment for District operations. The Corporation was formed by the Board solely for the purpose of acting as the lessor for Certificates of Participation financed facilities, with the District as lessee. On November 1, 1994, June 1, 1995, May 1, 1996, February 1, 2000, April 1, 2001, February 1, 2002, March 21, 2002, May 15, 2002, December 10, 2002, June 10, 2003, June 24, 2003, April 8, 2004 and May 26, 2005 the Corporation issued Certificates of Participation ("Certificates") Series 1994A, Series 1995A, Series 1996A, Series 2000A, Series 2001A, Series 2002A, Series 2002B, Series 2002C, Series 2002D, Series 2003A, Series 2003B, Series 2004A, Series 2005A, Series 2005B and Series 2006A in the amounts of \$62,095,000, \$133,600,000, \$32,155,000, \$155,000,000, \$135,500,000, \$115,250,000, \$115,350,000, \$161,090,000, \$191,215,000, \$60,865,000, \$124,295,000, \$103,575,000 \$38,505,000 and \$222,015,000 respectively, to third parties, evidencing undivided proportionate interest in basic lease payments to be made by the District, as lessee, pursuant to the Master Lease. Simultaneously therewith, the Board as lessor entered into Ground Leases with the Corporation for the Series 1994A, Series 1995A, Series 1996A, Series 2000A, Series 2001A, Series 2002A, Series 2002B, Series 2002C, Series 2002D, Series 2003A, Series 2003B, Series 2004A and Series 2005B Facilities sites. On September 1, 1997 the District issued \$47,145,000 of Certificates of Participation Series 1997A to advance refund and defease a portion of the Series 1994A Certificates of Participation which mature on or after August 1, 2005. On July 24, 2001 the District issued \$169,445,000 of Certificates of Participation Series 2001B to advance refund and defease the Series 2000A Certificates of Participation. In addition, on September 5, 2002 the District issued \$93,350,000 of Certificates of Participation Series 2002E to advance refund and defease a portion of the Series 1995A and Series 1996A Certificates of Participation which mature on or after August 1, 2007. On February 25, 2005 the District issued \$124,630,000 of Certificates of Participation Series 2005A to advance refund and defease a portion of the Series 2001A, Series 2002A, Series 2002C and Series 2002D Certificates of Participation. These refunding issues were done in order to achieve debt service savings. (See Defeased Debt.)

On June 11, 2002, April 30, 2004 and December 15, 2005 the District sold Certificates of Participation, Series 2002, Series 2004 and Series 2005 Qualified Zone Academy Bonds ("QZAB") in an aggregate principal amount of \$950,000, \$2,923,326 and \$2,150,308 respectively. The QZAB program is a new financial instrument that provides a different form of subsidy from traditional tax-exempt bonds. Interest on QZAB's is paid by the federal government in the form of an annual tax credit to an eligible financial institution that holds the QZAB. The QZAB issuer is responsible for repayment upon maturity. The tax credits and bonding authority are made available by the federal government to support innovative school partnerships; enhance reform initiatives, including augmenting Federal education programs, technology and vocational equipment; and development of curriculum or better teacher training to promote market

driven technology. To be eligible, a school must:

1. Be located in an Empowerment Zone or an Enterprise Community or have 35 percent or more of its students eligible for free or reduced lunch under the National School Lunch Act.
2. Obtain cash and/or in-kind contribution agreements from partnerships equal to at least 10 percent of the gross proceeds of the QZAB.

The principal of the Series 2002, Series 2004 and Series 2005 QZAB certificates are payable on July 16, 2016, April 30, 2020 and December 15, 2020 respectively. The District deposits funds annually in an escrow, which when coupled with interest earnings will be sufficient to pay off the principal at maturity.

The Corporation leases facilities and equipment to the District under the Master Lease. The Master Lease is automatically renewable annually unless terminated, in accordance with the provisions of the Master Lease, as a result of default or the failure of the Board to appropriate funds to make lease payments in its final official budget. Failure to appropriate funds to pay lease payments under any lease will, and an event of default under any lease may, result in the termination of all leases. The remedies on default or upon an event of non-appropriation include the surrender of the Series 1994A, Series 1995A, Series 1996A, Series 2001A, Series 2002A, Series 2002B, Series 2002C, Series 2002D, Series 2003A, Series 2003B, Series 2004A, Series 2005B and Series 2006A Facilities by the District and the Trustee's re-letting for the remaining Ground Lease term, or the voluntary sale of the Series 1994A, Series 1995A, Series 1996A, Series 2001A, Series 2002A, Series 2002B, Series 2002C, Series 2002D, Series 2003A, Series 2003B, Series 2004A, Series 2005B and Series 2006A Facilities by the School Board. In either case, the proceeds will be applied against the School Board's obligations under the Master Lease. A summary of lease terms are presented as follows:

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2006

The Certificates are not separate legal obligations of the Board but represent undivided proportionate interests in lease payments to be made from appropriated funds budgeted annually by the School Board for such purpose from current or other funds authorized by law and regulations of the Department of Education, including the local optional millage levy. However, neither the Board, the District, the State of Florida, nor any political subdivision thereof are obligated to pay, except from Board appropriated funds, any sums due under the Master Lease from any source of taxation. The full faith and credit of the Board and the District are not pledged for payment of such sums due under the Master Lease, and such sums do not constitute an indebtedness of the Board or the District within the meaning of any constitutional or statutory provision or limitation. A trust fund was established with a Trustee to facilitate payments in accordance with the Master Lease and the Trust Agreement. Various accounts are maintained by the Trustee in accordance with the trust indenture. Interest earned on invested funds is applied toward the basic lease payments. Basic lease payments are deposited with the Trustee semi-annually on June 30 and December 30, and are payable to Certificate holders on August 1 and February 1.

Due to the economic substance of the issuances of Certificates of Participation as a financing arrangement on behalf of the Board, the financial activities of the Corporation have been blended in with the financial statements of the District. For accounting purposes, due to the blending of the Corporation within the District's financial statements, basic lease payments are reflected as debt service expenditures when payable to Certificate holders. Payment of the outstanding Certificates of Participation is insured through AMBAC Indemnity Corporation. During the year ended June 30, 2006, \$98,929,922 was expended for capital outlay in the Certificates of Participation Capital Projects Funds.

Floating-to-Fixed Cancelable Interest Rate Swap: In connection with the issuance on March 21, 2002 of the \$115,350,000 variable-rate Certificates of Participation Series 2002B, the District entered into a floating-to-fixed cancelable interest rate swap, effective through August 1, 2027, to hedge against future increases in interest rates. The swap will effectively convert the Certificates into 25 year synthetic fixed rate debt obligations with a coupon of 4.22%. In exchange for an upfront premium payment of \$6,142,000 received by the District, the swap counterparty has the right to cancel the swap on any date on or after February 1, 2007. In the event the swap is terminated, the District will be exposed to potentially higher interest rate payments on the Certificates. In exchange for an additional reduction in the fixed rate paid by the District on the swap, the counterparty has the right to pay a lower Alternate Floating Rate equal to 67% of 1 month London Interbank Offering Rate ("LIBOR"). The counterparty can pay this lower Alternate Rate if the 180-day average of the Bond Market Association ("BMA")/LIBOR ratio exceeds 67%. The most likely cause of an increase in the tax-exempt/taxable yield relationship would be legislation reducing the tax advantage of municipal debt, i.e. a tax cut. The Certificates and swap together create low cost, long-term synthetic fixed-rate debt for the District. At June 30, 2006, the swap had a negative fair value of \$9,139,277 based on mid-market values as of the close of business.

\$100 Million Fixed Margin Basis: On June 10, 2003, the District entered into a 25.5 year floating-to-floating interest rate swap in connection with the issuance of \$191.215 million of fixed-rate Certificates of Participation, Series 2002D. The swap notional principal amortizes to match the final \$100 million of maturing principal of the underlying Certificates. The swap creates economics similar to a 67% of LIBOR synthetic fixed-rate financing, i.e. variable-rate bonds plus floating-to-fixed rate swap, without the District having to actually issue the underlying variable-rate bonds. Under the basis swap, in exchange for receiving a below-market percentage of LIBOR, the District pays a variable rate equal to the BMA index less a fixed margin of 66.5 basis points. The swap produces expected present value ("PV") savings of \$10.68 million based on an assumed future average ratio of BMA to 1-month LIBOR of 67%. Since the District both receives and pays a variable rate under the basis swap, the transaction is interest rate neutral, all else equal. However, the District does bear risk of a future reduction or elimination in the benefit of the tax exemption for municipal debt. For example, a tax cut would likely increase the variable rate paid by the District under the swap and reduce or eliminate (in a worst case scenario) the swap's expected positive cashflow and PV savings. However, the risk of radical tax reform that would severely

reduce or eliminate the swap's savings is deemed to be relatively low. At June 30, 2006, the swap had a negative fair value of \$1,295,806 based on mid-market values as of the close of business.

Floating-to-Fixed Knockout Interest Rate Swap: In connection with the issuance on June 24, 2003 of \$124,295,000 of variable rate Certificates of Participation Series 2003B, the District entered into a floating-to-fixed knockout interest rate swap, effective through August 1, 2029, to hedge against future increases in interest rates. The swap will effectively convert the Certificates into a synthetic fixed rate debt obligation with a coupon of 3.91%. In exchange for an upfront premium payment of \$3,010,000 received by the District, the swap counterparty has the right to terminate "knockout" the swap if the 180 day average of the BMA index exceeds 7.0% in the future. In the event the swap is terminated, the District will be exposed to higher interest rate payments on the Certificates. The knockout feature is exercisable anytime until August 1, 2018. Once the knockout option expires the District will be left with a fixed-payer swap that matures on August 1, 2029. The Certificates and knockout swap together create low cost, long-term synthetic fixed-rate debt for the District. At June 30, 2006, the swap had a negative fair value of \$1,345,521 based on mid-market values as of the close of business.

Floating-to-Fixed Interest Rate Swap: In connection with the anticipated future issuance of \$116,550,000 of variable-rate bonds to refund outstanding Certificates of Participation, Series 2002D and \$162,980,000 of variable-rate bonds to refund outstanding Certificates of Participation, Series 2001B, on August 10 and August 16, 2005 respectively, the District sold two options (the "Swaptions") on floating-to-fixed BMA interest rate swaps to Citibank, NA. The upfront gross premium amounts for the sale of the 2002D and 2001Bswaptions were \$4,240,000 and \$6,250,000 respectively. Net of transaction costs and anticipated future costs of issuance, the District received \$3,426,073 and \$5,215,049, respectively, exceeding its targeted premium levels. The Swaption sales allowed the District to achieve a *synthetic forward refunding* of the Bonds to lock in savings based on current market conditions. Under U.S. tax law, the 2002D and 2001B Bonds were not eligible for a traditional current refunding until May 1, 2012 and May 1, 2011, respectively. The terms of the Swaptions were structured to mirror the terms on the optional redemption features on the 2002D and 2001B Bonds. At June 30, 2006, the swap had a negative fair value of \$20,729,116 based on mid-market values as of the close of business.

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2006

10. RETIREMENT PLANS

Plan Description: The District contributes to the Florida Retirement System (the "System"), a cost-sharing multiple-employer defined benefit pension plan administered by the State of Florida Division of Retirement. The System was created in 1970 by consolidating several employee retirement systems, including the Teachers Retirement System. All eligible employees, as defined by the State, who were hired after 1970 and those employed prior to 1970 who elect to be enrolled, are covered by the System. Employees hired prior to 1970 and not electing to enroll in the Florida Retirement System may be covered by various contributory plans, principally the Teacher's Retirement System Plan E. The System provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The Florida Legislature established the System under Chapter 121, Florida Statutes, and has sole authority to amend benefit provisions. Each year the System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Florida Department of Management Services, Division of Retirement, 2639 North Monroe Street, Building C, Tallahassee, Florida 32399-1560.

Funding Policy: The System is non-contributory for employees and the District is required to contribute an actuarially determined rate. During the fiscal year the rates ranged from 7.83% to 18.53% of annual covered payroll. The Teachers Retirement System is contributory and the rates for those employees still participating in this program is 11.35% and 6.25% for the employer and the employee, respectively. The contributions of the District are established and may be amended by the State Legislature. The District's contributions for both plans to the System are equal to the required contributions for each year as follows:

	June 30, 2004	June 30, 2005	June 30, 2006
Florida Retirement System	\$ 57,415,837	\$ 61,354,189	\$ 69,712,034
Teachers' Retirement System Plan E: Employer	101,044	85,762	81,883

11. POST RETIREMENT BENEFITS

In addition to the retirement benefits described in Note 10, the District has authorized various early retirement incentives to provide financial assistance for the purchase of health and life insurance to our retirees. In all cases, employees who retire from the District may purchase health and life insurance through the District. The newly retired employee must send a payment each month to cover the cost of the insurance premiums.

For those eligible employees who qualify for one of the Retirement Incentive Programs ("RIP"), listed below are brief descriptions and eligibility criteria of the various Plans:

RIP 1996 – Eligibility criteria included being an administrator of any age with at least 25 years of service with the District. The District pays an annual insurance subsidy for up to ten years. The subsidy amount depends on the age of the retiree. For instance, the retiree receives an annual amount of \$2,300 until the fiscal year following the retiree's 65th birthday, wherein the annual amount changes to \$1,500. The retiree may purchase insurance through the District or another vendor if they choose. In addition, the eligible retiree receives a life insurance benefit of \$50,000 for up to ten years or the age of 70, which ever comes first.

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2006

RIP 1999 – Eligibility criteria include the following:

- 30 years of service with the Palm Beach County School District or
- Age 62 or higher (60 or higher if in the Teachers Retirement System) with at least 10 years of service with the Palm Beach County School District or
- Employees whose age plus years of service equal or exceed 80 and
- Employees must retire between April 21, 1999 and June 30, 2000.

The District pays an annual insurance subsidy for up to ten years beginning at \$2,400 and increasing 3% each year thereafter. Payments for this subsidy began August 1999 and are paid each August thereafter.

The government-wide financial statements recognize a liability for these post-retirement benefits. Consistent with GAAP guidelines, in the Governmental Funds statements no expenditure or liability is recognized until the benefits are due. A summary of the total expenditures for the fiscal year ended June 30, 2006 is as follows:

	Number of Participants	Insurance Subsidy	Incentive	Total Paid FY 2005
RIP 96	26	\$ 48,500	\$ -	\$ 48,500
RIP 99	112	313,032	1,831,381	2,144,413
Total	138	\$ 361,532	\$ 1,831,381	\$ 2,192,913

* Net of Florida Retirement System subsidy if applicable

12. COMMITMENTS AND CONTINGENCIES

The District receives funding from the State that is based, in part, on a computation of the number of full time equivalent ("FTE") students enrolled in different types of instructional programs. The accuracy of data compiled by individual schools supporting the FTE count is subject to State audit and, if found to be in error, could result in refunds or in decreases in future funding allocations. It is the opinion of management that the amount of revenue which may be remitted back to the State due to errors in the FTE count or the amount of grant expenditures which may be disallowed by granting agencies, if any, will not be material to the financial position of the District.

The District received financial assistance from federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material effect on the overall financial position of the District.

The District is involved in various lawsuits arising in the ordinary course of operations. In the opinion of management, the District's estimated aggregate liability with respect to probable losses has been provided for in the estimated liability for insurance risks and pending claims in the accompanying financial statements, after giving consideration to the District's related insurance coverage, as well as the Florida

statutory limitations of governmental liability on uninsured risks. It is the opinion of management in consultation with legal counsel, the final settlements of these matters will not result in a material adverse effect on the financial position of the District.

As part of its capital outlay program, the District has entered into various construction contracts. At June 30, 2006, the District had construction commitments of approximately \$99 million.
