

Educational Options Summer School 2006

Number of Students Enrolled	Number of Student Completions
491	747 completions for credit

The number of students enrolled is made up of those students who completed classes on the Educational Options Program. The number of course completions is greater than the number of students enrolled because students are able to take and complete more than 1 class during the summer school session.

Educational Options 2006 – 2007 Semester 1

Number of Students Enrolled	Number of Student Completions
207	127

The number of students enrolled is greater than the number of student completions due to the following reasons: withdrawals, attendance issues, relocating or rule infractions.
