Subject: Inappropriate Behavior

I would like to discuss some concerns with Nancy Hamilton's inappropriate behavior and disorderly conduct as well as harassment. Can we sit down and discuss these issues because the situation seems to be out of hand. I have tried talking with Nancy privately began to scream and yell. I would also like to discuss the concerns with Joan coaching Nancy on what to say and what to do next as well as giving her my personal information which is very unprofessional. I also asked Joan if I could speak with you this morning and she said she would call me up as soon as you finished your meeting. I have not heard back from you did Joan give you the message?
