CNC UPGRADE REFERENCES:

We have done this type upgrades at over 300 schools in the last few years. Here is a sampling. Many schools would rather pay about \$5,000 for an upgrade rather than spending \$25,000 on a new machine. We warranty it for a year like a new machine. Also, It operates better than a new machine from the original manufacturer. You also have the ability to receive support from us that no-one else can offer. This is why so many schools are doing upgrades.

Mr. Stephen Andrews
Barnwell High School
