CHIEF ACADEMIC OFFICER

September 30, 2004

Dear Ms. Killeets,

My son [redacted] has been attending an Alternative School, namely ACS in Boynton Beach since March 2004. He has successfully completed 8th grade and has begun his 9th grade school year there. He has successfully attended all the programs and testing that was mandated by the Juvenile Justice Program and has completed his work with his case manager, Don Rambus. Don visits us every week to check on [redacted]

Though [redacted] is excelling in his schoolwork at ACS, we are requesting early re-instatement. We would like to see [redacted] return to the public high school of his choice in January of 2005. ACS cannot provide [redacted] with challenging or grade-level academics that should be offered at the high school level. He continues to learn materials he had in middle school.

Enclosed you will find letters of recommendation and proof of his academic potential in public high school. Please consider him for early re-instatement for the Spring term.

To whom it may concern:

3 SEP 04

My name is Don Rambus from Juvenile Services Program currently I maintain a caseload of juveniles who have been diverted from the court system because of the minuteness of their crime. I write to you on behalf of [REDACTED] is a youth in the Juvenile Services Program and this is how I am involved with him and his family. In this program there are many sanctions that are levied against the youngsters for their part in legal issues [REDACTED] has received such sanctions. Jail tours, apology letters, community service work hours, an essay/book report, and other written sanctions.

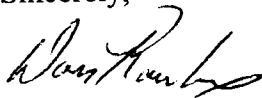

The average client in this program will complete all the sanctions and program requirements in about four months. The above average clients will complete the sanctions in three months [REDACTED] has completed all the sanctions and requirements in six weeks. This is because of [REDACTED] enthusiasm, dedication, and the focus he maintains on the task at hand.

[REDACTED] is very well adjusted, highly intelligent, and a well mannered young man. He has more than paid for his mistake to society. This is the main reason I am writing this letter. I have been associated with [REDACTED] current school, ACS alternative education. [REDACTED] is well beyond the education level that this school provides. There is nothing wrong in general with this educational institution however, it is geared more toward those students who have serious problems at their sending schools. Problems such as attitude, behavior, attendance, learning ability, and level of learning. This is a fine school for those students who have learning problems and are below the level they currently are placed in.

[REDACTED] has attained the apex this school can reach for a student and he cannot put his mind to challenging progresses and I fear is wasting his time and knowledge. Even the teachers at this school tell me that [REDACTED] is just wasting away here. He needs to be given the opportunity to return to his home school and prove he is rehabilitated and capable of establishing and maintaining excellent grades, behavior, and attendance. I for one recognize a talented young man who can contribute more to society with a better education than he is currently receiving.

I am in favor of [REDACTED] getting this opportunity, even on a trial basis if necessary. I have a very profound belief that [REDACTED] will succeed at a high level of competence once he is afforded this opportunity. After all the school board is suppose to be looking out for the best interest of the students' learning abilities. Please give [REDACTED] this chance to redeem himself educationally and I am positive there will be no regrets. Thank you very much for your time and consideration on this matter.

Sincerely,

Don Rambus MCJ
