MEMORANDUM

February 12, 2016

TO: School Board Members

FROM: David W. Christiansen, Ed.D., Deputy Superintendent/Chief of Schools

THROUGH: Dr. Robert Avossa, Superintendent

SUBJECT: RELEASE OF FY2015 DISTRICT AND SCHOOL GRADES

On February 12, 2016, the Florida Department of Education (FDOE) released the FY2015 District and School Grades. Student performance on the baseline administration of the new Florida Standards Assessments (FSA) provides the foundation for these grades, which are based on a revised school grading system recently adopted by the State Board of Education in January.

The FY2015 school grades do not include the learning gains of students which means these grades will not fully reflect the performance of many of our schools. Therefore, caution should be taken when comparing results from previous years.

A review of the FY2015 district and school grades for the School District of Palm Beach County (SDPBC) and other large urban districts in Florida reveals the following:

District Grades

- SDPBC earned an “A” rating and the highest percentage of points of any of the large urban districts in Florida
- SDPBC outperformed other large urban districts on the English Language Arts, Mathematics and Science achievement as well as Graduation Rate measures

School Grades

- Overall, the SDPBC had a higher percentage of “A” rated district-operated schools than the State and the other large urban school districts in Florida.
- For the fifth consecutive year, the SDPBC had a higher percentage of “A” rated district-operated elementary and middle schools than the State.
- In FY2015, the majority of SDPBC district-operated schools were rated “A” or “B”
 - 50.9% of elementary schools rated as “A” or “B”
 - 54.5% of middle schools rated as “A” or “B”
 - 73.9% of high schools rated as “A” or “B”

Table 1 contains District grades for the seven large urban districts in Florida. Tables 2a-2d contain grades for Florida and SDPBC district-operated and charter schools. Tables 3a–3d contain grades for the seven large urban school districts in Florida. Tables 4a-4e contain grades for District-operated elementary, middle, and high schools as well as alternative sites and charter schools.

These results are available on the District web site at:

2015 Informational Baseline School Grades Overview

Each school is graded based on the components for which it has sufficient data

School grades provide an easily understandable way to measure the performance of a school. Parents and the general public can use the school grade and its components to understand how well each school is serving its students. Schools are graded A, B, C, D, or F.

Components: In 2014-15, a school's informational baseline grade may include up to seven components. There are four achievement components, as well as components for middle school acceleration, graduation rate, and high school acceleration. Each component is worth 100 points in the overall calculation. Learning gains will not be calculated in 2014-15 because there is only one year of Florida Standards Assessment (FSA) results available. When learning gains are included in 2015-16, a school's grade may have up to 11 components.

Four Achievement Components: The four achievement components are English Language Arts (ELA), Mathematics, Science, and Social Studies. These components include student performance on statewide standardized assessments, including the comprehensive assessments, end-of-course (EOC) assessments, and Florida Alternate Assessments (FAA). The component measures the percentage of full-year enrolled students who achieved a passing score.

English Language Arts (FSA and FAA)	Mathematics (FSA, EOCs, FAA)	Science (NGSSS, EOC, FAA)	Social Studies (EOCs)	Graduation Rate	Acceleration Success
Achievement (0% to 100%)	Achievement (0% to 100%)	Achievement (0% to 100%)	Achievement (0% to 100%)	4-year Graduation Rate (0% to 100%)	High School (AP, IB, AICE, dual enrollment or industry certification) (0% to 100%)
Learning Gains (0% to 100%)	Learning Gains (0% to 100%)				
Learning Gains of the Low 25% (0% to 100%)	Learning Gains of the Low 25% (0% to 100%)				Middle School (EOCs or industry certifications) (0% to 100%)

Middle School Acceleration: This component is based on the percentage of eligible students who passed a high school level EOC assessment or industry certification.

Graduation Rate: The graduation rate is based on an adjusted cohort of ninth grade students and the rate measures whether the students graduate within four years.

High School Acceleration: This component is based on the percentage of graduates from the graduation rate cohort who earned a score on an acceleration

examination (AP, IB, or AICE) or a grade in a dual enrollment course that qualified students for college credit or earned an industry certification.

School Grades Calculation: The number of points earned for each component is added together and divided by the total number of available points to determine the percentage of points earned.

School Grading Scale: A = 62% of points or greater, B = 54% to 61% of points, C = 41% to 53% of points, D = 32% to 40% of points, F = 31% of points or less

Percent Tested: Schools must test 95% of their students.
