SUBJECT: RELEASE OF FY19 PRELIMINARY SCHOOL AND DISTRICT GRADES

On June 11, the Florida Department of Education (FDOE) released the FY19 preliminary School and District Grades. For the second time since FY15, the School District of Palm Beach County (SDPBC) is an "A" Rated School District earning 63% of the possible points.

Student performance on the Florida Standards Assessments (FSA) provides the foundation for these grades, which are based on a school grading system adopted by the State Board of Education (SBOE). The FY19 school grading system is based on the percentage of total points earned on several components including achievement, learning gains for all students and for lowest 25% students, high school graduation rates, and acceleration success in middle and high schools. The current school grades model has been applied since FY16, as such this summary only included FY16-FY19 for comparison. Schools and districts are rated "A" through "F" based on a percentage of points earned.¹

District Grades

- For FY19, SDPBC has an "A" rating and when compared to the other large districts in Florida, the District's performance was equal to or higher than other large districts in three of the 11 components including:
 - Math Achievement,
 - Math Learning Gains, and
 - ELA Learning Gains of the Lowest 25% of Students.
- When compared with all 67 Florida school districts, SDPBC was ranked 16th and one of 24 districts to receive an "A" grade.

A review of the FY19 preliminary School and District grades reveals the following:

School Grades

- For FY19, the results for SDPBC Traditional² schools showed that,
 - 70% of elementary schools were rated “A” or “B”; an increase of nearly 5 percentage points from the prior year,
 - 59% of middle schools were rated “A” or “B”, a decrease of 8 percentage points from the prior year,
 - 68% of high schools were rated “A” or “B”, the same as last year.
 - The District had the highest percentage of “A” rated elementary and middle schools compared to the large urban districts³ and the State.
 - The District had among the highest percentage of “A” rated high schools, along with Broward, compared to the large urban districts³ and the State.

Tables 1a-1e contain the numbers and percentages of School Grades for Florida and District operated elementary, middle, high, combination, and charter schools. Tables 2a–2e contain the percentages of letter grades for district operated elementary, middle, high, combination, and charter schools in the seven largest districts in Florida. Table 3 contains district grades for the seven largest districts in Florida. Table 4 contains school grade components for each school.
