As required by F.S. 1014.06(1), parent or legal guardian must authorize healthcare services to be provided for their student by a healthcare practitioner or their delegate, as defined in F.S. 456.001 and 1006.062, should the need arise for such treatment, while their student is under the supervision of the school.

When necessary, emergency health services such as first aid, cardiopulmonary resuscitation (CPR) or use of an automated external defibrillator (AED) will be performed until emergency medical services arrive on campus.

For each service choose Yes or No:

Health care services including care and treatment for illness and injury: Yes No

Yes - response will authorize such treatments including, but not limited to, major or minor injury or illness reported or observed while the student is at school. Failure to respond will result in an indication of "no" for healthcare treatment.

No - response will result in calls to the parent or guardian for the student to be picked up for all medical concerns. This will be for all instances where students are feeling ill, have a headache or injuries such as cuts, scrapes, bumps, or bruises. EMS will be called for any situation deemed serious.

Students will receive non-invasive health screenings for vision, hearing, scoliosis, and height/weight (BMI) pursuant to Florida Statute 3.81.0056(6)(e), unless the parent or guardian opts out in writing by checking "no" below:

Hearing screening: No

Scoliosis screening: No

Growth and development screening (body mass index): No

Vision screening: No

Note: This form, in addition to a physician's authorization, will be required for the school clinic staff or school staff to administer daily or as-needed prescribed or over-the-counter medications, conduct medical procedures or provide medical treatment.

I understand that this consent will remain in effect until the above named student transfers to another school district, graduates or I indicate in writing that I wish to rescind this consent for school health services.
